

**ISN Biomedical
Training School**

Empowering Laboratories with Excellence

Welcome to the

ISN Medical Biomedical Training School (IBTS)

This Biomedical Training school was designed to mirror one of our core values of growth and continuous development at ISN Medical.

Our Value-Added Training Services

Whether you're advancing core lab competencies or refining operational efficiency, our specialized training programs offer practical knowledge, expert-led instruction, and transformative outcomes for biomedical professionals.

Our training sessions are designed to provide -

1

Instrument-Based Training

- Hands-on sessions tailored to diverse biomedical instruments.
- Maintenance techniques and troubleshooting fundamentals.
- Real-world simulations to build confidence and precision.

2

Good Laboratory Practice (GLP)

- Principles of quality and integrity in scientific testing.
- Sample handling, documentation, and reporting standards.
- Designed for both early-career and experienced lab professionals.

3

ISO 15189 QMS Training Package

- Full-spectrum training in Quality Management Systems.
- Implementation strategies aligned with ISO 15189 requirements.
- Internal audit procedures and continual improvement techniques.

4

Laboratory Staff Soft Skills Training

- Effective communication for lab teams and clients.
- Time management, conflict resolution, and leadership essentials.
- Tailored workshops to foster teamwork and emotional intelligence.

5

Lab Test Menu Maximization Training

- Analyze and optimize your lab's test offerings.
- Improve diagnostic relevance and profitability.
- Align services with current healthcare demands and referral patterns.

6

Lab Test Menu Maximization Training

- Industry-recognized curriculum
- Expert instructors with global experience
- Dynamic, interactive learning formats
- Custom packages for labs of all sizes

Biomedical Training School 2025 Training Schedule

Training Area	Session Title	Delivery Format
Instrument-Based Training	Hematology Systems	On-site Hands-On
	Biochemistry Systems	On-site Hands-On
	Immunoassay and Advanced Systems	On-site Hands-On
Good Laboratory Practice (GLP)	GLP Core Principles	Hybrid
	GLP Refresher and Audit Prep	Hybrid
ISO 15189 QMS Training	ISO 15189 Intro Module	Hybrid
	ISO 15189 Advanced Implementation	Hybrid
Soft Skills Training	Part I: Communication and Collaboration	Virtual
	Part II: Leadership and Client Interaction	Virtual
Lab Test Menu Maximization	Menu Planning and Optimization	On-site Workshop
	Package Design and Profitability Analysis	On-site Workshop
Year-End Consolidation	Capstone Presentations and Certification Exams	On-site
